

GCO-2901-SMA

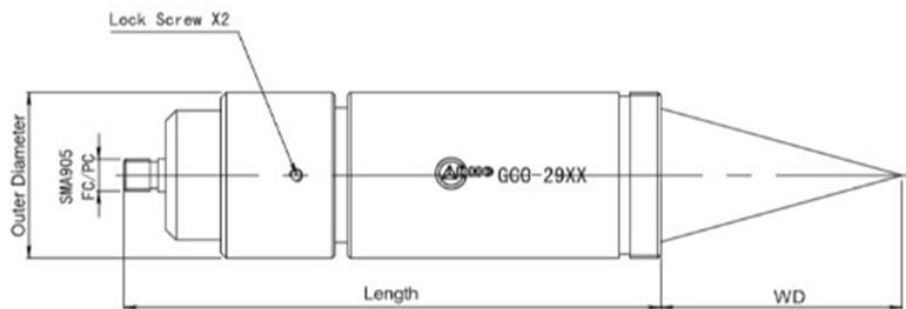

Focusing Lens w/ SMA Connector

Key Features:

- Connects to the SMA905 Connector
- Designed for a 400um fiber with a 46.6mm Working Distance

The GCO-2901-SMA multi-element lens system is designed to focus the output of a 400um, 0.22 NA fiber to a spot. The focus spot has a fixed magnification of the fiber core diameter at a designated working distance.

GCO-29

Part No.	Magnification	Transmission	WD	Outer Diameter	Length	Core Diameter	N.A	Interface type
GCO-2901-FCPC	1:1	>92%	46.6	32	97.6-102.6	0.4	0.22	FC/PC
GCO-2901-SMA	1:1	>92%	46.6	32	101.2-106.2	0.4	0.22	SMA905
